

RECOMMENDATION

Mr. B. Aleksandrov was engaged as an intern in our company from the 1st of May till the 30th of September, 2020 as "Computer systems and networks specialist" in the "Computer systems, office equipment, communications" Department. At this position he was performing the following assignments:

1. Computer systems assembling and maintenance.
2. Operational systems Windows 10
3. Object Oriented programming featuring complex Java and Python understanding
4. Installing of servers with OS and system administration of Windows NT/2000 Server, Novell Netware, Linux.
5. Design of computer networks, installing and maintenance of network equipment - Hubs, Switches, Routers, Modems.
6. Advanced knowledge and practice on multiple programming and web programming languages, such as Java, Python, JavaScript, JSON, jQuery, HTML, CSS, SQL, MySQL
7. Work with clients, problems diagnostics and correction.

At the described above position, Mr. Aleksandrov confirmed himself like a competent and capable specialist. He got quickly into the specificity of the activities in this field and with his work he proved to be a responsible person, with high criteria for quality, good communication skills, adaptation to different situations, ability for work in a team, capability for applying the company policy in practice and supporting the company style.

We recommend him strongly as a proficient specialist in the computer technologies field.
